| ✓ Rochelle Bell, Monroe County Dept. of Planning & Development | ✓ Jayme Thomann, G/FLRPC                               |

### Agenda & Minutes

- Review minutes from [December 18<sup>th</sup> Zoom meeting](#) check-in.
- Review updates to the draft Intermunicipal Floodplain Overlay District local law.

*Include the three general flood-risk management guidelines from CRRA's Proposed State Flood Risk Management Guidance in the model local law's Article III: Applicability / District Standards.*

*Stevie Adams can assist in the descriptive narrative for the select geospatial options (Article III).*

*Stevie Adams suggested reviewing the ASFPM webinar, CRS Green Guide and Natural & Beneficial use of Floodplains [Pierce County, WA example] (attached).*

*Mark Lowery will continue to share this project with CRRA's Model Laws Drafting Team (DOS).*

- Review draft Site Plan Review Checklist for development in floodprone areas.

*The Steering Committee supports the use of this checklist during the site development review process. It has been suggested that it complement a template Floodplain Development Permit Application that can be used by any municipality in New York State (with particular focus in New York's Great Lakes Basin).*

- Consider [No Adverse Impact](#) language for the Monroe County Development Review Committee (DRC).

*Monroe County will consider additional language for the standardized floodplain comment to include No Adverse Impact.*

- Explore opportunities for simplified Floodplain Development Permit Application and Certificate of Compliance.

*In general, the municipalities do not have a separate Floodplain Development Permit Application; it is included with most residential and commercial applications as a tracking permit.*

#### Next Steps:

- *Schedule next in-person meeting for late March or early April at the Town of Parma.*
- *Jayne will develop a template Floodplain Development Permit Application to complement the Site Plan Review Checklist for development in floodprone areas.*
- *Jayne will develop some No Adverse Impact language for consideration by the Monroe County Development Review Committee (DRC).*
- *All – continue to review and edit the draft Intermunicipal Floodplain Overlay District local law.*
