CLEAN ENERGY COMMUNITIES ENERGY CODE ENFORCEMENT TRAINING WORKSHOPS

This ***free*** one-day event includes two workshops:

- *Enforcing the Energy Code: Residential Buildings*
- *Enforcing the Energy Code: Commercial Buildings*

Both workshops are required to complete the Energy Code Enforcement Training high-impact action under NYSERDA's Clean Energy Communities program. Workshops are interactive and structured around mock construction plans and specifications. Attendees will work in small groups and focus on thorough and effective plan review and inspection to verify compliance with the New York State Energy Conservation Construction Code. Instructors are highly experience in the classroom and the field, having worked on buildings of all types.

Wednesday, 11/28/18 8:00-5:00 PM

Victor Town Hall. 85 East Main St.

*CEUs available from AIA, BPI, NY DOS
